How to Play

This game needs at least three players. One person is the Bingo caller and the others are the players.

- ◆ The caller calls out the words as they are drawn from the container. The caller crosses the word off the main list as it is called.
- ◆ Players cross off each word on their grid if it is called out.
- ◆ When a player has crossed out a line going down, they call out "RUGG!" 3pts
- ◆ When a player has crossed out a line going across, they call out "RUGGER!" 5pts
- ◆ When a player has crossed out all twelve words, they call out "RUGBY!" 7pts
- ◆ The winning player calls their words back to the caller, and the caller checks to see if they have been called.
- ◆ The winner has the next turn at calling.
