

A rugby post must be 5.6m across and the crossbar must be 3m from the ground.

- What is the area under the posts?
- If you are 1.7m tall, how far away are you from hitting your head on the crossbar?
- If you are standing by one of the post uprights, how far are you to the closest sideline?
- If you are standing next to the post, how far are you from the other set of posts?
- If the posts are 12m tall how much of the posts is above the cross bar?
- If the posts are 12m tall, what is the area above the crossbar to the top of the posts?
- If the “pads” on the posts are 0.5m wide, what is the distance between each pad?
