

# MEASUREMENT & NUMBER STRATEGIES

## Stage 5-6

1. How would you measure the following things?  
Kilometre, centimetre, metre, kilogramme, litre etc.
  - a. a rugby field
  - b. water in a bottle
  - c. weight of Rugger
  - d. distance to drive to a match
  - e. length of a hotdog

2. The New Zealand coastline is 15,000km long. How many rugby fields could we run down the coastline?
3. Catching the rugby ball is important. Draw around one of your hands. Measure the length of each finger. Do the same for the other hand.

Fill in the table provided. Are your fingers the same length on both hands?

Compare your measurements with the whole class. How do your hands compare? Find out if boys' or girls' fingers are bigger.

	Left Hand	Right Hand
Thumb		
1st Finger		
2nd Finger		
3rd Finger		
4th Finger
