

STATISTICAL INFORMATION

Stage 5-6

1. Draw a bar graph for the two eras displaying where the players come from.
2. What conclusions can you make from these findings? Give a one or two sentence statement about these.
3. In 1924 there wasn't one player over 100kg in weight. How many players in 2003 are over 100kg? What are your findings?
4. In 1924 there wasn't a player taller than 1.90m. How many in 2003 are taller than this? What are your findings?
5. Write an **OVERALL** conclusion about the mass and heights of the two teams.
6. Is there anyone in your class taller or heavier than someone from the 1924 All Blacks?
7. Is there anyone in your class taller or heavier than someone from the 2003 All Blacks?
