

Activity One

Rugger, William, Webb and Alice have been goal kicking the rugby ball over the posts at practice. Here are their kicking statistics.

Rugger

Shots taken: 98

Goals: 78

William

Shots taken: 105

Goals: 70

Alice

Shots taken: 144

Goals: 71

Webb

Shots taken: 100

Goals: 65

1. Which Ruggerbee got the greatest percentage of their kicks over?
2. What is the simplest fraction that could be written for each player's percentage?

Activity Two

Hold a goal kicking competition with two other classmates.

Let one kicker have 10 shots, one 12 shots and the other 18 shots.

Use percentages to decide who is the best goal kicker.
