

YOUR FACE

Level 1-2

All Blacks can sometimes be easily recognised because they are often seen in magazines, newspapers and on television. Your face is usually the first thing people look at when they meet you.

Did you know there are over 100 muscles in your face and this is why you can pull so many different faces. It also tells us when somebody is happy, sad, bored, excited, tired or angry.

TRY THIS

See if your face is exactly symmetrical. Find a photograph of yourself and position a mirror in the middle of it. Does it look the same?

EVER HAD YOUR MOTHER OR FATHER WASH YOUR FACE FOR YOU? WELL, IT WAS PROBABLY BECAUSE YOUR FACE TENDS TO BE EXPOSED TO ALL THE MUCK AND GRI ME AROUND THE PLACE. WASHI NG YOUR FACE WI TH WARM SOAPY WATER I S A GOOD WAY TO CLEAN YOUR SKI N.

FACTS

1. Your face goes red because blood has travelled to your cheeks.
2. Eyebrows on your face stop small particles getting into your eyes.
3. Smiling is easier than frowning. It takes 20 muscles to smile and over 40 to frown.

TRY THIS

You can also recognise people by their faces alone. Cut out from a magazine some recognisable faces and see how many of them your classmates can recognise.
